

LESSON # 8: GREEK PARTICLES AND CLAUSE INDICATORS

THIS LESSON INCLUDES (more or less in this order):

- The Greek prepositions
- The Greek conjunctions
- Some random Greek particles
- A note on adverbs
- Some new vocabulary
- and, of course, some further exercises and irritating pages of technical work!

YOUR ASSIGNMENT FOR THE NEXT CLASS IS:

- Read over this material carefully for comprehension
 - Spend an hour reading Greek on the "buddy" plan
 - Review and increase your vocabulary
- Watch for any exercises that may occur.
- and be sure to review the verb inflection endings, the article, and anything else you are supposed to know...The end is drawing near and you will need all of this stuff just to get out of this course.
