B. Discussion of Background material to the Colossian letter..  
questions from page 6

C. Questions related to Colossians 1:9-24.

(Remember you are to think through these carefully but you do not need to write out your thoughts. You must prepare five additional questions in writing for use in class as we have opportunity.)

1. A power word is one that suggests a strong or forceful action. What power words are observable in this section?
2. What apparently seems to be Paul's interest in the Colossian church so far as its condition is concerned?
