

## b. Time

Scripture:Observations

3:1-8

We need it and feel the lack of it keenly. When one is very young life looks like a long thing but when one is older it looks more like a passing dream. But God is eternal...He has the time we need so very much. The implication of the Scriptures is that He gives us as much as we need... we must appropriate what He has made available and live with Him in it.

12:1-7

## c. Physical Requirements

ScriptureObservations

2:24

The energies and strengths needed for whatever tasks may come are no liability to the Lord. He has all power and supplies it as we need. This is why the strong do not always win the race...God does not always give the strength uniformly. We have differing physiques and capabilities but God prepares us each to serve in agreement with His cause. Thus no one can take a great deal of comfort in what one is except as one is that in God.

5:18

8:15

9:9

## d. Moral Requirements (this is really morale, gang)

ScriptureObservations

2:26

Without the wisdom and knowledge given by God we would be perpetually bewildered about life settings. But God puts joy in our hearts and that evervates us for whatever setting is about. As with the other points, this must be appropriated and those who wish to be gloomy and dull may be so.

5:20

9:7

## e. Spiritual Requirements:

ScriptureObservations

5:1-7

To know how we should live before God would defy our natural understanding since our finite minds cannot approach His. But He is pleased to let us know what the spiritual standards are and how we may conform to them. This great need in life causes much uneasiness until one grips the truth that this need is met by God.

7:18-20

8:12-14

11:9
