On this Material

It is skeletal and generally descriptive of where we are going in our studies. It is done rather rapidly so typing mistakes may appear...in any line. The major points of ministry are sketched in these notes in the hope that it will help establish them more firmly. But it is by no means a full manuscript nor should it be considered as such.

The materials are prepared in the office of Tom V. Taylor, Biblical Seminary, 200 North Main St., Hatfield, PA. 19440
