

- The prophets (of both ages)
- His Son

These have elaboration and greater detail in H.S.Miller: GENERAL BIBLICAL INTRODUCTION, pp 30-31.

2. Human Instrumentality:

- a. Texts: 2 Peter 1:21
With this are the many texts that show the prophets speaking in God's name, Moses writing in God's name, etc.
- b. Person: Prophets, priests, persons raised up of God to do His will without much respective consideration of background, family, education, etc.
- c. Individuality: This is a little hard to explain so I will probably illustrate it on the blackboard but I mean the way in which God allows the individuals to be themselves while still faithfully giving the Word of God.

3. The role of the church:

I think it is not right to say the church gave us the Bible although we might just be splitting hairs. My own feeling is that if it were not for the Bible there would be no church so the church is the product of the latter rather than otherwise. But the church has served as guardian, interpreter, and promoter of the Bible and I will likely elaborate on that unless you are very fortunate tonight.

C. The Character of the Work

- 1. It is characterized as "revelation"
 - a. Definition
 - b. Meaning
 - c. Application
