

Saudi Arabia swing powerfully towards Egypt, then I would look for another Arab alliance myself.

Student: *It may happen if — —*

Mr. Taylor: It will be interesting to see. I personally think that Saudi Arabia is the key to much of the Arab world. Many scholars laugh at that, but I personally feel that way. Now, maybe Jordan is more of a key, too, but I am prone to think that Saudi Arabia has been the big ~~key~~ key, and Ibensad and these fellows with huge financial interests seem to show remarkable ability to walk on both sides of the street. You know they continued selling oil to Israel through the war. ^{They just sneakily} ~~did it.~~ ^{because} I am told that. I ~~didn't~~ didn't handle any of the transactions! I am told that, but the thrust of it is where the oil goes, the money comes. And it costs a lot to raise those expensive race horses! ~~So~~ So, I think it is a very important key. I just don't know how far that will go.

Well, we appreciate your being in attendance at the seminar, and I don't know if my cleaning staff will rearrange this room or not. I did see Richard Shaw look in the back door. That may be a good sign. If that is a good sign, will I ever be happy! See, we have a church that meets here on Sunday while they are having a new building built. Otherwise we would leave this room a shambles until next fall. So that concludes my notes. If there are any further individual questions, why you may ask Dr. Newman.

Student: Thank you very much.

Mr. Taylor: ^{ah} Ah, it is nice to have you here.
