

4. Then the matter of grading...your grade will be computed on this line:

Class Participation....	1/4
Mid-Term	1/4
Paper	1/4
Final	<u>1/4</u>

What more need be said?

5. And a note on class procedure...especially when I am not here.

As a retired person from the regular faculty, I have accepted a number of invitations for conferences, preaching series, etc. These are arranged about two years in advance and are something greatly enjoyed by me and are hopefully useful to the people of the Lord. But it means that I have plans that will keep me away from class from time to time. In such cases I will either have a video tape (ugh!) or a substitute. You will have the class materials in advance and everything should go ok..I hope. Making the videos is something of a pain, I might add, but is an enormous improvement over the old audio tapes and the things that were involved with them. I will offer a fuller explanation of this in class..if I am there!

And as far as you are concerned..if you need to miss a class, you just miss it. There are no penalties in this course for absence..except, of course, that the student misses the stimulating daily class experience. You should, if absent, learn from some student (who was present!) of all that was done on that day..it will probably take a minute or so to glean the ongoing. Don't ask the teacher..he is thinking of the present and the future, not the past.

C. The "Syllabus" for this course

1. The material is organized around the subjects suggested on page 2. We will keep a running chronology and a table of persons and their deeds to give a fuller perspective..
