0.T. Introduction

A view of some of the textual variations in Psalm 95...not materially different in character from the historical books or the prophets...but

Ps 95,1 ° C mit Mss און 2° 55 pr cop || ^b pc Mss און 3° pc Mss 5 מון 3° pc Mss 5 מון 10 מון 1

will not detail these although we will look at some of them in class. of in particular vs. 3, fig. b..you will see a lot of psalm text suggestions and on this line...4 a, 5 a, and such suggestions are not worthy of a lot consideration, I think, but it will acquaint you with text correction based lightly speculative stuff.

And we may take time to see some places where textual suggestions have been of great concern:

Psalm 2

Micah 5

Zechariah 12

Unless you decide to major in these fields, the text studies will always be very supplemental. But the more you work in them the more appreciative you become of the Masoretic text and more firm you feel about its accuracy. Our chief purpose in this first part of the syllabus is to indicate that the text of the Old Testament is a good text and you really cannot afford to miss that!
