

**B. The Assignments:**

As with some other courses, the particular development of assignments waits to see how many students (and what programs are included) are in the class. But they will revolve around our two analytical charts (quotations, allusions), the reading of a collateral work by FF Bruce, and perhaps some Greek and Hebrew studies..depending. These will be fleshed out in greater detail..before you are very much older..and in a more appropriate place in our introductory work.

**C. The Biblical Background for our study..is pinned on the various statements in the New Testament that give some guidance and help for our work. A few of these are:**

1. 1 Corinthians 2:9-16
2. 2 Timothy 3:14-17
3. Romans 15:1-4
4. 1 Corinthians 10:1-12
5. 1 Peter 1:10-12

and there are many others although these are perhaps the fullest directional statements. One thing that will become immediately apparent is the simple fact that we have plenty of material with which to work.

**D. Explanation of our Charts**

Now this is really important and may tend to be confusing so I will try to work through it patiently and carefully..trusting you can all follow in the labyrinth. Well, it is not that bad but it does tend to be long and complex and after I have discussed the charts I will give the assignment schedule relevant to them..something you will want to mark in these notes so as to remember where it is..when one wonders about those things in the future. There are two of them.. the first is rather fully developed and the second is not at all developed but will be as you work at it. So please be careful in this area and be prepared for a lot of careful but rewarding work.
